

Women's Rights National Historical Park www.nps.gov/wori

The following centennial proposal is certified as eligible for Centennial Challenge funding consideration in fiscal year 2008. Funding for the Centennial Challenge requires legislation.

Develop Educational Traveling Trunk

Location: Seneca Falls, NY

Partner(s): Friends of Women's Rights National Historical Park

Partner Website: [//www.womensrightsfriends.org](http://www.womensrightsfriends.org)

Total Cost: \$9300

Proposal # 133562

Summary: Develop educational traveling trunks that will be available to school classes (grades 4 to 8) as an educational tool on the First Women's Rights Convention. This project addresses the goal of connecting visitors to our parks through educational opportunities not currently available to classes that do not have adequate funds for field trips. Almost 2000 students visit the park each year on educational field trips. Many more students never get the chance to learn the park's story due to school budget travel cuts, distance, and unavailability of vehicles. The traveling trunks would serve as a pre-visit tool for classes that can visit the park while also serving as the only experience for classes that are unable to visit. The trunks may reach an additional 2000 students.
